# CaroMont Health Doctors' Day 2011

## Celebrating the Doctors of CaroMont Health

# If A Doctor Made A Difference, **Say So.**

## **National Doctors' Day, March 30, 2011**

The doctors of CaroMont Health touch the lives of patients every day through their tireless work and dedication. Perhaps you have a special story of a CaroMont physician who made a difference in your life? March 30 is National Doctors' Day and a rare opportunity to say thank you. Whether you return the attached card with a donation to the Gaston Memorial Hospital Foundation, or a story to be included in a commemorative book, it's a great way to simply say thanks.

Please share your story of the outstanding care you experienced from our doctors.  
Feel free to continue your story on additional paper if you need to.
